

Downey SST Tonneau

Display Rack Instruction Sheet

(STEP 7)

Pull off the protective film from the adhesive strips and position brochure holder on right side of display (as shown) and press firmly.

(STEP 8)

Load brochure holder with pre-packaged brochures.

(STEP 9)

Place Mini SST Tonneau Cover on display top piece and secure with 4 clamps as shown.

Assembly is now complete.

Downey SST Tonneau

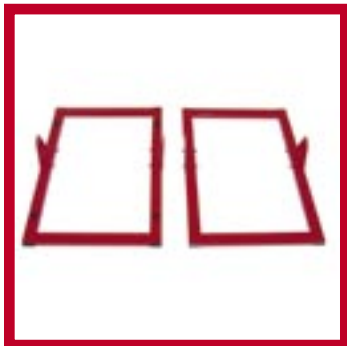

Display Rack Instruction Sheet

Parts List

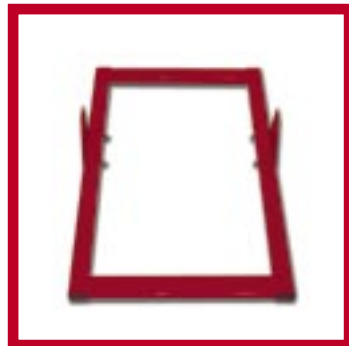

- Hardware Kit
- Display Top & Bottom
- Sway Brace
- Flanges (4 pc)
- Support Arm (2 pc)
- Header Card
- Brochure Holder
- Brochure Pack
- Mini SST Tonneau Cover
- Four Clamps

(STEP 1)

Affix one flange to each side of the top and bottom portion of the display. Use the eight 2 3/4" bolts supplied.

(STEP 2)

Place bottom on floor (top base contains four holes).

(STEP 3)

Attach one support arm on each side of base using the 2" bolts supplied.

(STEP 4)

Attach sway brace with 2" bolts on bottom of support arm (above the base).

(STEP 5)

Position display top piece over support arms and top portion of sway brace. Secure with 2" bolts. Please make sure the top portion of sway brace is attached to support arm and display top piece as shown.

(STEP 6)

Attach sign with 3 bolts pre-inserted in back bar of display.
